Contenidos del paquete

- TE100-PCBUSR
- CD-ROM del controlador
- Guía de instalación rápida

Requisitos del sistema

- Unidad de CD-ROM
- Ranura tipo II PCMCIA
- Windows Vista/XP/2000/ME/98SE

Aplicación

2. Cómo se instala

Nota: El TE100-PCBUSR es hot pluggable, puede conectar o desconectar el TE100-PCBUSR con el PC encendido. Después de introducir el TE100-PCBUSR en la ranura para Tarjeta PC, le aparecerá el Found New Hardware Wizard (Asistente para nuevo hardware encontrado).

1. Le aparecerá la ventana **Found New Hardware** (Nuevo hardware encontrado). Seleccione **No** y haga clic en **Next** (Siguiente).

2. Introduzca el **CD-ROM del controlador** en la unidad de CD-ROM de su PC y luego haga clic en **Next** (siguiente). and then click **Next**.

3. Haga clic en **Finish** (Finalizar).

La instalación ha sido completada

Para obtener información más detallada sobre la configuración así como de las configuraciones avanzadas del TE100-PCBUSR , por favor consulte la sección de resolución de problemas, el CD-ROM de la Guía del Usuario, o el sitio Web de Trendnet en <http://www.trendnet.com>.

Q1: Windows is unable to recognize my hardware. What should I do?

A1: Make sure your computer meets the minimum requirements as specified in Section 1 of this Quick Installation Guide. Also make sure that you have fully inserted the TE100-PCBUSR Ethernet PC Card adapter into the PC Card slot of your computer.

Q2: I successfully installed and verified installation of the TE100-PCBUSR Ethernet PC Card adapter, but I can not connect to the Internet. What should I do?

A2: Check and verify that the connection of the RJ-45 network cable between the TE100-PCBUSR and the switch/router are secure and in working order. Next, check the "Link/ACT" lights of the TE100-PCBUSR and verify that there is network activity between the Ethernet adapter and your wired network. Finally, check the operation of your network and verify that your computer's TCP/IP settings are correct.

Q3: Why is my network connection slow?

A3: Check the network activity of the users on your network and make sure they are not slowing down the network by downloading large files. Also check the operation and configuration of your network; if your computer is connected to a network that operates at 10Mbps, you might want to consider upgrading your network hardware to operate at 100Mbps or faster.

If you still encounter problems or have any questions regarding the TE100-PCBUSR, please refer to the User's Guide included on the Driver CD-ROM or contact Trendnet's Technical Support Department.

Certifications

This equipment has been tested and found to comply with FCC and CE Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received. Including interference that may cause undesired operation.

Waste electrical and electronic products must not be disposed of with household waste. Please recycle where facilities exist. Check with you Local Authority or Retailer for recycling advice.

NOTE: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

ADVERTENCIA

En todos nuestros equipos se mencionan claramente las características del adaptador de alimentación necesario para su funcionamiento. El uso de un adaptador distinto al mencionado puede producir daños físicos y/o daños al equipo conectado. El adaptador de alimentación debe operar con voltaje y frecuencia de la energía eléctrica domiciliar existente en el país o zona de instalación.
